

Ep. 0 - Trailer

Hi everyone and welcome to the SheCanEngineer podcast! My name is Laura and I'm your host as part of the SheCanEngineer committee. The SheCanEngineer committee are a group of Engineers who represent different Professional Engineering Institutes and Societies, and we're also from different engineering backgrounds and industries. But we all come together because we are passionate about diversity and inclusivity in Engineering.

Find us on Twitter, LinkedIn and Instagram at 'shecanengineer' (which is all one word, no spaces) to see what we're up to, join the conversation and get involved! And tune in every month for a new episode exploring different topics on diversity and inclusion.

Thanks for joining us, see you soon!
